Christ for Conakry, Guinea

Conakry, Guinea for Christ

The Goal

It is the goal of Women Helping Women, Inc. to campaign on behalf of women and provide resources that will enable them to move from a state of desperation to independence and self-sufficiency. The transition of women will only come through God, education, adequate health care, access to job training, counseling and a personal relationship with Jesus Christ.

Provide financial assistance to needy women on the continent of Africa in the countries of Guinea and Liberia which will enable them to pursue education and training for better health, housing, employment and religious freedom.

Provide financial assistance to needy women across the United States that will enable them to pursue education and job training to help build them up and move them from dependence to independence.

Provide information and resources to the women of Africa and the Women of the United States to enable them to reach their goals.
